Right to work: Student visa – up to 20 hours a week in term time, full-time during university holidays

PROFILE

Software engineer and business intelligence analyst with hands-on experience building SQL-driven dashboards in Metabase and Power BI, and shipping full-stack web systems in React, Next.js, Node.js and Go for healthcare and manufacturing clients. Currently studying for an MSc in Artificial Intelligence. Looking for a part-time data analyst or developer role where I can turn data into clear decisions and build reliable software.

TECHNICAL SKILLS

Data & BI	SQL, Power BI, Metabase, Excel, KPI and funnel analysis (AARRR), data cleaning and reconciliation
Languages	Python, JavaScript / TypeScript, Go, SQL
Web	React, Next.js, Node.js, Express, REST APIs, role-based access control
Databases	PostgreSQL, MongoDB
Cloud & tools	AWS, Git, LLM APIs

EXPERIENCE

Business Intelligence Analyst | NEXT Ventures (FNmarkets), Dhaka — Apr 2026 – Jul 2026

- Built and maintained Metabase and Power BI dashboards tracking trader lifecycle KPIs for a CFD brokerage product
- Wrote SQL queries to extract, clean and reconcile large volumes of customer and trading data
- Analysed acquisition-to-retention funnels (AARRR) and presented findings to non-technical stakeholders

Full Stack Developer | Al Bayt Hospital Management System — Sep 2025 – Feb 2026

- Architected a multi-tenant hospital management system in Next.js and MongoDB, with role-based access, offline/online sync, and pharmacy, pathology and billing modules
- Built the pharmacy backend in Go

Full Stack Developer | Kernel Technologies, Dhaka — Jan 2025 – Aug 2025

- Built and maintained business applications as part of a small, deadline-driven team

Full Stack Developer Intern | Singularity Limited, Dhaka — Jun 2024 – Sep 2024

- Delivered MERN-stack web systems for healthcare and manufacturing clients, including billing and records modules
- Gathered requirements directly from clients, wrote user documentation and trained staff on new systems

EDUCATION

MSc Artificial Intelligence | Brunel University London — 2026 – present

- Awarded the Vice-Chancellor's Postgraduate International Excellence Award

BSc Software Engineering | Islamic University of Technology, Bangladesh — CGPA 3.75 / 4.00

- Thesis (A+): benchmarked GPT-4, LLaMA and CodeLLaMA for automated code review

CERTIFICATIONS & LANGUAGES

- AWS Certified Cloud Practitioner – in progress (exam due November 2026)
- English (fluent), Bengali (native)
